### FILL OUT AND FILE

#### INCOME TAX FORMS

Income War Tax Forms  
Must Be Filed Before  
March 31st

It was inevitable that an income war tax law should have been placed on the statute books. The growing demands made upon Canada, engaged in the life and death battle with the forces of barbarism, and the necessity of distributing the burden as equitably as possible, made the imposition of a tax, based on ability to pay, merely a matter of time.

All the great nations engaged in the conflict have found it necessary to make the income tax one of their principal sources of revenue. Among the more striking evidences of the will to win in these times of sacrifice, is the spirit with which the people of Great Britain—upon whose shoulders rests the major portion of the war's financial burden—are going about the work of supplying the sinews of war. The people of France and the United States are as cheerfully doing their part and it is a foregone conclusion that the people of Canada, already inured to sacrifice, will make of the income tax an opportunity to serve the holiest cause which has ever engaged the attention of mankind. Like the fathers of the American Revolution, the free peoples of the earth have dedicated their lives, their fortunes and their sacred honor to the cause which they espouse. The call upon the fortunes of the people of Canada, is to take the form of a graduated tax on all incomes of \$1,500 and over, enjoyed by all unmarried persons, or widows and widowers without dependent children, and of \$3,000 and over, enjoyed by all other persons, as well as by all corporations and joint stock companies.

The Department of Finance is now calling for the filing of the necessary forms, filled out as required, before the 31st of March. While penalties for failure to carry out the requirements of the act are provided, it is confidently expected that the people of Canada, jealous of their right to play a major role in the conflict, will respond to this latest call in a spirit of quiet patriotism.

There will be a meeting of the Ratepayers of Ward 5, R. M. of Stewart, No. 302, on Saturday March 23rd, at 2 p.m. in Gregerson School, for discussion of municipal affairs and better roads. T. H. Nond, Councillor.

The Ford Saves the Hay and Oats  
the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

### Note and Comment

An Order in Council recently  
passed at Ottawa makes it com-  
pulsory for every retail mer-  
chant, selling food or food prod-  
ucts for household consumption and  
commonly designated under  
the heading of groceries, to  
obtain a license from the  
Canada Food Board. This li-  
cense must be procured before  
May 1st, 1918.  
All retail butchers and fish  
dealers are also to be licensed.

A good citizen is known by  
the food he eats.

People who wish to help in  
food conservation should con-  
sider potatoes as a partial sub-  
stitute for wheat flour. Potatoes  
are the chief staple of the  
semi-perishable foods. We do  
not eat our fair share of pota-  
toes even in normal times. We  
have been largely a wheat, beef  
and pork consuming people.  
These staples are now required  
for overseas and it behoves us  
to substitute other foods for  
them whenever possible. We  
consume, perhaps, two and one-  
half bushels of potatoes per  
capita per year, or about one-  
third of a pound per day—equal  
to one fair sized potato. In  
some European countries one  
pound per day per capita is con-  
sumed, and in some districts  
four pounds per day, and nearly  
twenty-five bushels per year.

Learn to control your own  
appetite before you try to con-  
trol your neighbor's.

If the parents of those boys,  
who are using the various roofs  
in town as a playground, do not  
see to it that they keep off the  
buildings, there is a likelihood  
that a rush call will be sent in  
for the doctor, or the under-  
taker.

We wish to tender our deep-  
est sympathy with one of our  
local farmers who lost his ex-  
press package, while on the way  
home, a few days ago. In fu-  
ture we would suggest that he  
look at the cork and make sure  
that it is absolutely tight.

The second helping is getting  
to be bad form.

### The Food Controller says:

The very great difficulties in  
the way of compulsory ration-  
ing in Canada puts an addition-  
al responsibility for voluntary  
food service upon every person  
in Canada, no matter what his  
rank or circumstances may be.  
With a tremendous stretch of  
country sparsely settled, except  
in a comparatively few districts  
the enforcement of compulsory  
food economy on any general  
scale presents serious obstacles.  
It is hoped that the Greater  
Production campaign, which is  
now being started, will make  
unnecessary any resort to com-  
pulsory rationing in Canada.  
At the same time our people  
must realize that efforts must  
not be relaxed to conserve food,  
for the need is very great.

THE Dominion Income War Tax Act requires you to fill in one or more of  
the five special Forms provided before 31st March, 1918. In order to  
assist the public to understand just what is required of them, information  
on each Form is given below. Read carefully, then get three copies of the  
form that fits your case and fill them in. Answer all questions fully and  
accurately. For making false statements, a penalty of \$10,000 or six months' imprisonment, or both, is provided.

**Individuals.**—All persons unmarried, and all widows or widowers without dependent children,  
whose income is \$1500 a year or more, must fill in Form T1. All other persons whose income is

attach a financial statement. Under Deductions, show in detail amounts paid to Patriotic Fund  
and Canadian Red Cross or other approved War Funds.

**Trusts, Executors, Administrators of Estates and Assignees** use Form T3. Full particulars  
of the distribution of income from all estates handled must be shown as well as details of amounts

### FILL OUT AND FILE

#### INCOME TAX FORMS

Income War Tax Forms  
Must Be Filed Before  
March 31st

It was inevitable that an income war  
tax law should have been placed on the  
statute books. The growing demands  
made upon Canada, engaged in the life  
and death battle with the forces of bar-  
barism, and the necessity of distrib-  
uting the burden as equitably as possible,  
made the imposition of a tax, based on  
ability to pay, merely a matter of time.

All the great nations engaged in the  
conflict have found it necessary to  
make the income tax one of their prin-  
cipal sources of revenue. Among the  
more striking evidences of the will to  
win in these times of sacrifice, is the  
spirit with which the people of Great  
Britain—upon whose shoulders rests  
the major portion of the war's finan-  
cial burden—are going about the work  
of supplying the sinews of war. The  
people of France and the United States  
are as cheerfully doing their part and  
it is a foregone conclusion that the  
people of Canada, already inured to  
sacrifice, will make of the income tax  
an opportunity to serve the holiest  
cause which has ever engaged the at-  
tention of mankind. Like the fathers  
of the American Revolution, the free  
peoples of the earth have dedicated  
their lives, their fortunes and their  
sacred honor to the cause which they  
embrace. The call upon the fortunes  
of the people of Canada is to take the  
form of a graduated tax, on all incomes  
of \$1,500 and over enjoyed by all un-  
married persons, or widows and wid-  
owers without dependent children,  
and of \$3,000 and over, enjoyed by all  
other persons, as well as by all corpora-  
tions and joint stock companies.

The Department of Finance is now  
calling for the filing of the necessary  
forms, filled out as required, before the  
31st of March. While penalties for  
failure to carry out the requirements  
of the act are provided, it is confident-  
ly expected that the people of Canada,  
jealous of their right to play a major  
role in the conflict, will respond to this  
latest call in a spirit of quiet patriotism.

There will be a meeting of the  
Ratepayers of Ward 5, R. M. of  
Stewart, No. 302, on Saturday  
March 23rd, at 2 p.m. in Gregerson  
School, for discussion of  
municipal affairs and better  
roads. T. H. Nond, Councillor.

much work with the TRACTOR as he can

Horses, and oats to feed them, are high

## The Ford Saves the Hay and Oats the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

## Note and Comment

An Order in Council recently passed at Ottawa makes it compulsory for every retail merchant, selling food or food products for household consumption and commonly designated under the heading of groceries, to obtain a license from the Canada Food Board. This license must be procured before May 1st, 1918.

All retail butchers and fish dealers are also to be licensed.

A good citizen is known by the food he eats.

People who wish to help in food conservation should consider potatoes as a partial substitute for wheat flour. Potatoes are the chief staple of the semi-perishable foods. We do not eat our fair share of potatoes even in normal times. We have been largely a wheat, beef and pork consuming people. These staples are now required for overseas and it behoves us to substitute other foods for them whenever possible. We consume, perhaps, two and one-half bushels of potatoes per capita per year, or about one-third of a pound per day—equal to one fair sized potato. In some European countries one pound per day per capita is consumed, and in some districts four pounds per day, and nearly twenty-five bushels per year.

Learn to control your own appetite before you try to control your neighbor's.

If the parents of those boys, who are using the various roofs in town as a playground, do not see to it that they keep off the buildings, there is a likelihood that a rush call will be sent in for the doctor, or the undertaker.

We wish to tender our deepest sympathy with one of our local farmers who lost his express package, while on the way home, a few days ago. In future we would suggest that he look at the cork and make sure that it is absolutely tight.

The second helping is getting to be bad form.

## The Food Controller says:

The very great difficulties in the way of compulsory rationing in Canada puts an additional responsibility for voluntary food service upon every person in Canada, no matter what his rank or circumstances may be. With a tremendous stretch of country sparsely settled, except in a comparatively few districts the enforcement of compulsory food economy on any general scale presents serious obstacles. It is hoped that the Greater Production campaign, which is now being started, will make unnecessary any resort to compulsory rationing in Canada. At the same time our people must realize that efforts must not be relaxed to conserve food, for the need is very great.
